Subject: February CAG Meeting

Hi Alanna, Kristine,

I realize this is a little late in the cycle, everyone is busy preparing the proposed plan, but given that EPA Region 10 released the response to NRRB comments, would it be possible to have EPA Region 10 staff at the CAG meeting to give an outline of those comments and responses? This would be helpful for us to better understand how development of the proposed plan is progressing.

thanks,

jim
